John McNulty, Grayson McCouch : Federal Estate and Gift Taxation in a Nutshell, 7th (In a Nutshell (West Publishing)) (Nutshells) before purchasing it in order to gage whether or not it would be worth my time, and all praised Federal Estate and Gift Taxation in a Nutshell, 7th (In a Nutshell (West Publishing)) (Nutshells):

9 of 9 people found the following review helpful. Perfect review for an estate and gift tax examBy thejoeyI purchased this book last year to help study for my Estate and Gift Tax exam in December 2011. I read it from cover to cover before my exam and it was a great refresher of the materials we covered in class. You'll probably want to switch to the next edition of the book, especially for 2013, because of all the changes taking effect in January will make some of the information in this edition (portability, the annual exclusion amount, etc.) outdated.0 of 0 people found the following review helpful. Must readBy Houston GrayI can't really expand on the other person's review but wanted to confirm everything they commented on. This is a great book and a must read for Estate and Gift Taxation.

This comprehensive guide can serve either as a course supplement or as a refresher for members of the bar. Expert commentary summarizes the law and offers critical perspectives on the estate, gift, and generation-skipping transfer taxes, including lifetime and testamentary transfers, joint-and-survivor tenancies, life insurance, annuities, and powers of appointment; inclusion and valuation; exemptions and exclusions; deductions; and tax liabilities. Additional chapters cover basic tax and estate planning concepts, reform proposals, and fundamental alternatives to the current transfer tax system.
