Most Americans don't realize that flood damage is NOT covered by standard property insurance policies. This book helps educate homeowners and renters about how to protect themselves. It's a primer on flood insurance, covering the mechanics and details of how flood-related damages are discovered, identified, repaired, insured, litigated, negotiated and settled. Uses NFIP and FEMA insurance/risk management guidelines, standard insurance policy language, current case studies and analysis of black-letter law to give the reader a thorough understanding of this risk. And practical tips on what to do when flood waters start to rise.

About the AuthorThe Silver Lake Editors have been writing consumer books about risk and personal finance issues for more than a decade. Their other books include "CRAMDOWN: Renegotiating Mortgages..." and the national bestseller "Identity Theft." These books are designed to give careful consumers the tools they need to make smart decisions about their lives.
