Friends and Lovers: Marriage as God Designed ItBy Sherri EdingerThis book is so easy to read and caputered and kept my attention the whole time. Whether you believe in God or not, this book has great advice and practicals to use. There were times when I laughed out loud because the situation described was pin point accurate and there were times when I was stopped dead because the situation described hit home and I was immediately convicted. I truly recommend this book to every married couple and even those who are engaged. This is one of my all time favorite books and I have given this book as a gift. Great writing and wisdom, you cannot lose on this one.4 of 4 people found the following review helpful.
