Tony Blackburn : Gardens and the Law before purchasing it in order to gage whether or not it would be worth my time, and all praised Gardens and the Law:

"This is a comprehensive book on the law relating to gardens. It covers matters relating to land, including easements and common land; boundaries; analysis of the Access to Neighbouring Land Act 1992; occupier's liability; planning law; nuisance; and consumer protection. It includes chapters on ownership, types of garden, neighbours' claims,

boundaries, rights to light, rights of way, trees, water, noise, animals, selling or leasing a garden and development."
