**Francis Rose : General Average - Law and Practice** before purchasing it in order to gauge whether or not it would be worth my time, and all praised General Average - Law and Practice:

An account of the underlying law and the practical rules which govern the adjustment of rights and liabilities between

parties to a maritime adventure when extraordinary measures have been incurred for the benefit of the common adventure. The third edition incorporates international case law developments to bring the text up to date and analyses the revision of the basic practical rules underlying general average adjustment internationally. It is essential for all those involved with maritime affairs to understand the implications of these new rules and how they fit with existing law and practice.

About the Author F. D. Rose is a barrister of Gray's Inn, and a Professor of Commercial Law at Bristol University.
