**Fahui Wang : Geographic Information Systems and Crime Analysis** before purchasing it in order to gage whether or not it would be worth my time, and all praised Geographic Information Systems and Crime Analysis:

This book features a diverse array of GIS applications in crime analysis, from general issues such as GIS as a communication process and inter-jurisdictional data sharing to specific applications in tracking serial killers and

predicting juvenile violence.

About the Author Fahui Wang is an Associate Professor of Geography at Northern Illinois University. His research interests include spatial analysis and GIS applications in crime, healthcare and cancer studies. His research has been supported by the National Institute of Justice, the U.S. Department of Health and Human Services and the National Nature Sciences Foundation of China.
