**Melvin A. Eisenberg : Gilbert Law Summaries: Contracts** before purchasing it in order to gage whether or not it would be worth my time, and all praised Gilbert Law Summaries: Contracts:

3 of 3 people found the following review helpful. Excellent PurchaseBy Khais TaylorThis is an excellent purchase, even if you don't have one of the books to which this supplement is keyed. I recommend it for anyone trying to learn Contracts. One word of advice, however, is to start with this book early on and stick with it as you move through the sections in your class. Waiting until the last minute can mean that you're spending too much time trying to review this book (and figure out where the various sections are), and not enough time actually outlining.0 of 0 people found the following review helpful. To the point materialsBy EDUVery in site full. To the point with materials1 of 1 people found the following review helpful. I don't recommend spending any minute on this bookBy MadisonOutline is scattered and not in a logical order. I don't recommend spending any minute on this book, unless if you desperately need additional resources to help w/ confusing concepts, only after reading lecture notes, your casebook, and EE.

This Contracts outline discusses consideration (including promissory estoppel and moral or past consideration), mutual assent, defenses (including mistake, fraud, duress, unconscionability, statute of frauds, and illegality), third-party beneficiaries, and assignment of rights and delgation of duties. It also covers conditions, substantial performance, material v. minor breach, anticipatory breach, impossibility, discharge, and remedies (including damages, specific

performance, and liquidated damages).
