This title covers international and comparative issues of antitrust law, economics, and policy. It can be used to enrich U.S. antitrust casebooks or by itself for courses on global antitrust. It addresses all major issues of competition law and global competition policy, including extraterritoriality; global norms; cooperation, convergence, and divergence; the

states role in restraining or facilitating competition; process and procedures; and substantive areas including cartels, horizontal and vertical agreements, abuse of dominance, and mergers. It compares developed and developing jurisdictions. It references numerous jurisdictions, including the European Union, China, Japan, India, Russia, South Africa, Tanzania, Zimbabwe, and Latin American countries.
