Jerry Goldfeder : Goldfeder's Modern Election Law - Third Edition before purchasing it in order to gauge whether or not it would be worth my time, and all praised Goldfeder's Modern Election Law - Third Edition:

It is very gratifying that the first three editions of this book received such positive reviews in The New York Times, The New York Law Journal, The New York State Bar Journal, Ballot Access News and the Election Law Journal. More importantly, MODERN ELECTION LAW has been embraced by the bench and bar, and has increasingly been cited in lawyers' briefs and courts' decisions. (In a supreme irony, a court recently quoted the book at length - and held against my client!) Journalists have also routinely relied on it to figure out what the election law provides when, for example, public officials get convicted or resign; what the eligibility requirements are for our many city, state, county, town and village offices; how special elections work; and the intricacy of campaign finance and tax laws. Many candidates and political operatives have confided that they, too, keep a copy nearby to make sure they are following

the law. I am very pleased that the book is being put to such good use. This Fourth Edition is greatly expanded from the earlier versions, with up-to-date citations through December 2015, and brand new or revised chapters. I have added to the book in-depth explanations of campaign finance laws; the way Initiative and Referendum work in our state, cities, town and villages; an historical analysis of election law relating to the nomination and election of President of the United States; and an entire chapter devoted to New York's new Election Reform and Modernization Act. Also included are samples of a variety of pleadings, as well as Board of Elections and campaign finance forms for New York State and New York City. There are also very detailed indexes to assist the reader in locating particular subjects, cases, articles, statutes or political personalities.
