**Steven Feldman, W. Keyes : Government Contracts in a Nutshell, 5th (West Nutshell Series)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Government Contracts in a Nutshell, 5th (West Nutshell Series):

2 of 2 people found the following review helpful. A lot of valuable informationBy usuk.bilingualI just took a course on government contracting and this book was one of many recommended by the school. It's expensive but the information is invaluable and the writing style makes it easy to read. The index is clear, facilitating a quick reference. I

recommend this book to anyone who works with government contracts. 2 of 2 people found the following review helpful. Contracting By Samuel F. Crow As a contract specialist for 21 years and in retirement, this book give a great over view of contracting. It is really necessary for those junior contract specialists and those who are preparing to enter. 6 of 6 people found the following review helpful. Great book. By Jeanne M. Dugger I purchased this book as a reference for work. Invaluable and straight to the point which makes going through FAR and DFAR alot easier.

Summarizes the Federal Acquisition Regulation System (FARS), improper business practices and personal conflicts of interest, publicizing contract actions, outsourcing/privatization, and competition requirements. Addresses acquisition plans, contractor qualifications, contract delivery, and performance. Explains socio-economic policies, commercial items, options, sealed bidding, and negotiation. Reviews general contracting requirements, intellectual property, cost accounting standards, cost principles, financing, protests, disputes, and appeals. Explores research and development contracting, construction and architect-engineer contracts, inspection and warranty, value engineering, delays, suspension of work, modifications, subcontracting, and government contract termination.
