**Reid Ewing, Keith Bartholomew, Steve Winkelman, Jerry Walters, Don Chen : Growing Cooler: The Evidence on Urban Development and Climate Change** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Growing Cooler: The Evidence on Urban Development and Climate Change:

Based on a comprehensive study review by leading urban planning researchers, this investigative document demonstrates how urban development is both a key contributor to climate change and an essential factor in combating it by reducing vehicle greenhouse gas emissions.

About the Author Reid Ewing is a research professor at the National Center for Smart Growth at the University of Maryland. He lives in College Park, Maryland. Keith Bartholomew is an assistant professor of urban planning at the University of Utah's College of Architecture + Planning. Steve Winkelman is the director of the Transportation Program at the Center for Clean Air Policy. Jerry Walters is a principal and chief technical officer with Fehr Peers Associates, a California-based transportation planning and engineering firm. Don Chen is the founder and executive director of Smart Growth America.
