**Wolters Kluwer Law : Guide To Government Contracts Flowdown Requirements** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Guide To Government Contracts Flowdown Requirements:

Today, there are more than 240 FAR and DFARS clauses that have either mandatory or optional flowdown requirements. In many instances, locating and understanding these requirements is time-consuming and difficult. So

staying compliant with government contracts can be an exhausting and daunting task. And of course, noncompliance can lead to severe consequences. The Guide to Government Contracts Flowdown allows you to quickly access the flowdown information relevant to your subcontracts, saving you time and allowing you to focus on your business. The Guide to Government Contracts Flowdown provides the latest information on the mandatory and recommended flowdown requirements for both FAR and DFARS, so you quickly know which clauses must be flowed down and which can be negotiated. Content is arranged in numerical order under headings for FAR mandatory flowdown, FAR recommended flowdown, DFARS mandatory flowdown, and DFARS recommended flowdown, allowing for easy identification of requirements. A concise, plain-language explanation of the flowdown information is provided, along with the full text of the provision or clause. And more!
