Thomas Hazen, David Ratner : Hazen's Broker Dealer Regulation: Cases Materials (American Casebook Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Hazen's Broker Dealer Regulation: Cases Materials (American Casebook Series):

This law school casebook is devoted to broker-dealer regulation in the securities markets. The book covers SEC and self-regulation of the securities brokerage industry and the securities markets, fraud, manipulation, abusive sales

practices, margin regulation, obligations to customers, conflict of interest, and investment advisers. The casebook focuses on regulatory issues as well as civil liabilities of broker-dealers. Designed for use in an advanced course, it includes excerpts from cases and administrative decisions and also from self-regulatory organizations such as the National Association of Securities Dealers (NASD), and also includes materials relating to market regulation generally.
