Richard Rodger : Housing in Urban Britain 1780-1914 (New Studies in Economic and Social History) before purchasing it in order to gage whether or not it would be worth my time, and all praised Housing in Urban Britain 1780-1914 (New Studies in Economic and Social History):

0 of 0 people found the following review helpful. Useful TextBy The ProfessorThis book is really written for the

professional historian, not the casual reader, but as a research document, it is quite good. Surveying the general state of housing in the United Kingdom with a primary focus on poor and middle-class dwellings, the book is complete and thorough, despite its relative brevity. If you want a handle on what terrace housing was like, and the conditions of the poor throughout the late Georgian, Victorian and Edwardian eras, the text will be useful to you.

Why did slums and suburbs develop simultaneously? Were class antagonisms to blame? Why did the Victorians believe there was a housing problem? The history of housing between 1780 and 1914 encapsulates many problems associated with the transition from a largely rural to an overwhelmingly urban nation, whose unprecedented pace imposed immense tensions within society. This book reviews the recent arguments and guides the student of social history to further reading, making it an ideal introduction to a central issue in nineteenth-century history.

"...Rodger's study is an excellent introduction to the social, economic, and political issues related to urban housing. Students at the undergraduate and graduate level will benefit from reading this introduction and then using both the notes and the updated bibliographical essay for further study." Vladimir Steffel, Historian
From the Back Cover
The history of housing between 1780 and 1914 encapsulates many problems associated with the transition from largely rural to an overwhelming urban nation. The unprecedented pace of this transition imposed immense tensions within urban society, while creating opportunities for builders, developers and landowners.
