the book is a 'fun facts' and 'recommended ideas' and 'recommended actions.' Cute stories, a quick read, an easy read. And I'm ready but hope to never get pulled over.6 of 9 people found the following review helpful. CUTE AND IT REALLY WORKS!By AnonymousAfter getting caught in a ridiculous speed trap outside Albany, NY last summer, I vowed NEVER to be extorted like that again. I ordered this book on the advice of a friend, and found several ideas I thought I could pull off. After all, everything's negotiable, right?Last week, I got stung again, but this time I was ready. My "excuse" involved a ratty old dog leash I got at a garage sale for a buck (negotiated down from \$2!) When the cop pulled me over, I went into high excuse mode: The pit bull I was watching for a friend on vacation got out and I was desperately trying to find "Spike" or my friend would kill me. The cop eyed the "prop" leash on the seat, looked at my panicked expression, and sent me on my way. I couldn't believe it! That stupid excuse from the book saved me a ticket, points on my license and a sure insurance hike. Now I want to try some of the other excuses in the book, but I think I'll slow down instead! If you can't afford to get another ticket, and you're not caught doing something crazy or reckless, you'll find plenty of easy ways out in this book. Believe me, it's a lot better to negotiate with a cop than a judge.2 of 2 people found the following review helpful. Amusing and informativeBy J. ReederI got this book as a gift and my husband started leafing through it and laughing. He couldn't stop sharing excuses - one particularly hilarious one was "I can't wear my seatbelt because I just got my nipples pierced!" But there's also practical information, from what the various stripes/badges etc. on the uniform mean rank wise (and who will most likely issue a ticket) to what to do when you get pulled over, like stop the car and put the keys on the dash. Definitely a great gift item for anyone who drives!
