**From Hart Publishing : State Aid and the Energy Sector** before purchasing it in order to gage whether or not it would be worth my time, and all praised State Aid and the Energy Sector:

This important new work offers a comprehensive and compelling account of State Aid law and policy, and its application to the energy sector. Clearly structured and offering meticulous detail and robust analyses, this book will be required reading for all practitioners in the field. The volume explores general questions from the definition of State Aid to its application in member states by national courts. It also examines questions of procedure, questions of

compatibility, and State Aid and the EEA. Written by a team of leading practitioners in the field, this book will be an invaluable tool for lawyers, policy-makers, and tax professionals specializing in State Aid law and energy law.

[Subject: Competition Law, Energy Environmental Law, Tax Law]

About the Author Dr Leigh Hancher is Part time Professor and Director of the Energy Law and Policy Area at the Florence School of Regulation, Florence, and Professor of European Law at Tilburg University, the Netherlands.
