**Henry R. Cheeseman : Study Guide for Business Law** before purchasing it in order to gage whether or not it would be worth my time, and all praised Study Guide for Business Law:

3 of 3 people found the following review helpful. I especially like the sample testing at the end of each chapterBy someoneThis is a legitimate study guide. You still need to read the chapters to make sense of it, but it helps you see what you caught and need more on from the book. I especially like the sample testing at the end of each chapter. If I do well on those I feel like I am ready to move on in the book. Great Book.3 of 3 people found the following review helpful. Study Guide worth it for meBy Susan Bentzen-GordetThis is a big help for the course I am taking.I have to share the one desk top at home, so having the Study Guide in print helps me to be able to study anywhere.I still have to read the book chapters, but the practice questions are great to prepare for quizzes.It works for me!0 of 0 people found the following review helpful. There are many errors in the answer key so you have to spend a lot of time checking if you are right!By Dustin GoodwinHelpful but keeps you questioning if you are answering correctly. As a study guide, I do not want to continue to review that my answers are correct but there are many mismarked answers. Unless you feel

comfortable checking your answers over and over again I would not buy this study guide
