protection. Jeff Matsen is an expert in this field and writes very well. It is pretty short and not as overwhelming as the other books on the topic which intimidate me. He goes into domestic structures and off-shore structures which is good because I feel like there is a lot of debate as to which structures are the most effective. I found a typo on page 75 (thanks, Jeff). You should definitely buy it for your mother on Mother's Day, your father on Father's Day, and your children for their birthdays. I'm kidding, don't buy this book for your family, just read it and then learn how to protect your assets. 0 of 1 people found the following review helpful. Asset Protection - simplified! By D.
