Learn the lawBy Charlie M.If you live in Arizona you have the right to carry a firearm without the hassle you might get from other "Big Brother" states, but that doesn't mean this is something you should take lightly. It is a big responsibility and besides receiving training from a QUALIFIED instructor on the proper handing and safely of a firearm you should absolutely know the law! It isn't a matter of putting a firearm in your pocket and just walking around. You have a right in this country to own a firearm, but with that right comes RESPONSIBILITY and that should never be taken for granted. This book will cover what you need to and should know about the laws in Arizona and there are plenty! This is NOT a "do whatever you want" state. It's a state that treats you like a responsible adult and reading this book and taking a CCW course shows you are that adult. You can never know too much! But if you are not willing to learn then I would suggest you rethink owning a firearm.0 of 0 people found the following review helpful. gun owners guideBy bobgood book everyone should have one
