Forms do not comply with California Law: my evicition was totally blown up by a demurrerBy Charles A PeaveyI have used variations of this book for over 15 years. One time I had a judge throw out an Ulawful Detainer action because the forms in the book for a 3-day Perform Covenant or Quit did not conform to the law: no explanation given. I thought it was an anomaly since the judge was a pro-tem judge and the tenant had moved out and so there was really no problem and I didn't follow up. I thought nothing more of it until

last month. I issued a 3-day notice to Perform Covenant from this book and filed an Unlawful Detainer Action as soon as the period for the notice expired. I had the summons and complaint served by the Sheriff and when I went to take a default: BAM, I learned that a Notice of motion and demurrer was filed. The allegation was that the 3-day notice failed to comply with CCP ss1161(2) and the allegation was upheld. I lost several weeks, the motion was upheld and I lost not only the suit but also my costs and that of the other party. I have to file all over again from the beginning. This was as a result of following the instructions in this book to the letter! Great book unless someone contests its content in a court of law, then it is going to cost you!!!!0 of 0 people found the following review helpful. This book is, by far, the most valuable book you can get as a California landlord. I bought an edition 16 years ago, used it so much, and wanted an update, so I bought a new edition. In all honesty, not a tremendous amount has changed in the law or in the book, so I don't think a person needs to get a new copy every few years, but EVERY California landlord should have some copy of this book.1 of 1 people found the following review helpful.
