**From Brand: Routledge-Cavendish : The Challenge of Asylum to Legal Systems** before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Challenge of Asylum to Legal Systems:

A collection of papers presenting critical perspectives in the development of asylum law with a focus on European and UK developments, incorporating international human rights law and comparative law perspectives. Issues covered range from law-making at the EU level, with a particular focus on extra-territorial processing of refugees claims, asylum procedures, family members of those in need of protection, welfare benefits and impact of national level on the reception of EU norms. Domestic and comparative perspectives offered include discussions on detention, judicial decision-making, appeal rights, claims processing with particular reference to the role of interpreters and developments in Australia which have provided a model of thought worthy of emulation in the UK.

'This useful addition to the literature provides the insight that one might expect of governing institutions, and some cannon fodder, for those who would include this category of human rights problems in their courses and discourses about the integration of theory and practice.' - ASIL, Issue 34, February 2006 'This work is composed of analyses by leading experts in the field of refugee and asylum law. This examination of asylum presents a global, European, and comparative perspectives. It focuses on how asylum issues and the various legal regimes for controlling them have impacted Western Legal systems.' - ASIL, Issue 34, February 2006 About the Author Dr Prakash Shah is Lecturer in Law at Queen Mary College, University of London, where he teaches Comparative Immigration and Nationality Law.
