**Jean Domat, Luther Stearns Cushing : The Civil Law in Its Natural Order.** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Civil Law in Its Natural Order.:

The Making of Modern Law: Foreign, Comparative and International Law, 1600-1926, brings together foreign, comparative, and international titles in a single resource. Its International Law component features works of some of the great legal theorists, including Gentili, Grotius, Selden, Zouche, Pufendorf, Bijkershoek, Wolff, Vattel, Martens, Mackintosh, Wheaton, among others. The materials in this archive are drawn from three world-class American law libraries: the Yale Law Library, the George Washington University Law Library, and the Columbia Law Library. Now for the first time, these high-quality digital scans of original works are available via print-on-demand, making them readily accessible to libraries, students, independent scholars, and readers of all ages.+++++++The below

The Civil Law in its Natural Order, considering the age and the circumstances in which it was written, is a truly wonderful performance. His method is excellent, and his matter clear, exact, and comprehensive. Pothier, and other continental jurists, have drawn largely upon him to assist their own labors. --J. G.
