**From American Bar Association : The Class Action Fairness Act: Law and Strategy** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Class Action Fairness Act: Law and Strategy:

The book looks at CAFAs provisions, with in-depth analysis of statutory language, descriptions of key judicial interpretations, and specific suggested strategies for practitioners. CAFA has created important new strategic considerations for both plaintiffs and defendants. This book will provide both plaintiff and defense counsel with a

clearer picture of the statute, its case law, and helpful strategies, so attorneys can make better-informed decisions for their clients.

"The book covers nearly every CAFA-related topic conceivable, from the history of CAFA to the provisions expanding federal diversity jurisdiction in class actions and the provisions regulating federal class action settlements. It can be used as a reference guide for the basic requirements of CAFA, but it also provides practical strategy tips for both plaintiffs and defendants in dealing with common and not-so-common CAFA issues. If you don't have it, chances are that your opponent will!" Paul Karlsgodt, [ClassActionBlawg.com](http://ClassActionBlawg.com) About the Author Gregory C. Cook is chair of the Financial Services Litigation Practice Group at Balch Bingham, L.L.P., where he has practiced since 1991. He served for three years as cochair of the ABA Class Action and Derivative Suits Committee and is currently chair of the Business Torts and Antitrust Section of the Alabama State Bar. Cook is a magna cum laude graduate of Harvard Law School where he served as the executive editor of the Harvard Journal of Law and Public Policy. He is a member of the Texas and Alabama bars.
