**L. W. King : The Code of Hammurabi** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Code of Hammurabi:

2 of 2 people found the following review helpful. ShortBy b00kll0vrI know I should have read the description - but this is incredibly short. I believe this book is now more of an academic reference than something you sit down and read. All I can grade it on is the translation and binding. The cover and binding looks to me like something from the 70s.. but thats not a bad thing. I like the sterile feel of this book. It is very academic feeling (and reading). Those of you looking at this book I am sure know what it is.. I am not sure if this is the best option for everyone - I feel it is

expensive for what it is and I would recommend Kindle if you are looking to read it. If you are looking to keep it - this version is excellent - but as I mentioned - expensive. If I were to do it all over again I would buy this one:

[http://www..com/The-Code-Hammurabi-Forgotten-Books/dp/1605060518/ref=pd\\_sim\\_b\\_9?ie=UTF8refRID=1Q8GXEFHA2W1X5BZPS29](http://www..com/The-Code-Hammurabi-Forgotten-Books/dp/1605060518/ref=pd_sim_b_9?ie=UTF8refRID=1Q8GXEFHA2W1X5BZPS29)

It is nicer looking (the cover) and is more than half the price. 2 of 2 people found the following review helpful. Literal translation of the pillar of Hammurabi. By Steven Clark I needed a source for a research paper discussing the code of Hammurabi. This is literally the code of Hammurabi and the rest of the text from the pillar. 1 of 1 people found the following review helpful. Dispensation Laws By Valm Even though these were not the first laws in history at this dispensation this book was very interesting in some of the harshest punishments. What may have been unlikely was what was needed to get the job done.

Thank you for checking out this book by Theophania Publishing. We appreciate your business and look forward to serving you soon. We have thousands of titles available, and we invite you to search for us by name, contact us via our website, or download our most recent catalogues. . . . [Hammurabi] was the ruler who chiefly established the greatness of Babylon, the world's first metropolis. Many relics of Hammurabi's reign [1795-1750 BC] have been preserved, and today we can study this remarkable King . . . as a wise law-giver in his celebrated code. . . . [B]y far the most remarkable of the Hammurabi records is his code of laws, the earliest-known example of a ruler proclaiming publicly to his people an entire body of laws, arranged in orderly groups, so that all men might read and know what was required of them. The code was carved upon a black stone monument, eight feet high, and clearly intended to be reared in public view. This noted stone was found in the year 1901, not in Babylon, but in a city of the Persian mountains, to which some later conqueror must have carried it in triumph. It begins and ends with addresses to the gods. Even a law code was in those days regarded as a subject for prayer, though the prayers here are chiefly cursings of whoever shall neglect or destroy the law.

About the Author Mike Rothmiller is a New York Times Bestselling nonfiction author. He's penned over 17 books.
