The Emerging Police State will give you a good idea what it really means to be courageous, especially since most progressive/liberal thinking people

don't do much more than think and yak about changing the world. Here's a wonderful example of what a single person can accomplish when you get off your behind and put your body and soul on the front lines, year in, and year out! While Mr. Kunstler is no longer with us, he left an important legacy behind - the Center for Constitutional Rights (CCR) in New York City. They were literally the first group of lawyers to attempt defending those languishing in Guantanamo Bay, Cuba. I know Mr. Kunstler would be very proud, indeed! 0 of 2 people found the following review helpful. Two Stars By Joseph Miles Not very interesting, a collection of dated quotes. 1 of 1 people found the following review helpful. Fascists don't want you to have this! By Dutch American Every free thinking person should have this!

The defiance, anger, passion and optimism of America's "most celebrated and most detested" radical lawyer, William Kunstler, ring throughout this selection of his unpublished speeches. The consequence of Kunstler's outspoken opposition to war, racism and political repression was an extensive FBI file, which included secretly recorded transcripts of many of his public speeches, some of which are published here. The introduction by Michael Ratner, President of the New York Center for Constitutional Rights and attorney for the Camp X-Ray prisoners from Afghanistan, points out Kunstler's words are even more prescient today than in his time.

About the Author William Kunstler was the most famous radical lawyer of his time, representing among many, the Chicago Seven, the Attica prisoners, Martin Luther King Jr., and Malcolm X. He died in 1995.
