I have, earlier, read Majid Khadduri's translation of the "Risala", as well, which is more of a classical version of it. Based on my experience, I think, for a layman like me, to get a good understanding of such a grand work of Islamic scholarship of the Classical Islamic period it would be more helpful to benefit from both translations, to get a more comprehensive understanding of the text. 0 of 0 people found the following review helpful. Definitive By Majhul This is the definitive edition and translation of this difficult by historically very important text. A tour de force, and particularly if you compare it to previous translations.

"Lowry has made a new and assertive offering with his translation of conceptual terminology... a significant achievement." -Journal of Near Eastern Studies "The Epistle on Legal Theory represents one of the earliest complete works on Islamic law, one that is centrally important for the formation of Islamic legal thought and Islamic legal tradition." -Islamic Horizons This is a very accurate and eloquent translation. The translators use of suitable English terms makes the text easy to read, unburdened by transliterations or overly cumbersome terminology. -Ahmed El Shamsy, University of Chicago About the Author Muhammad ibn Idris al-Shafi'i (d. 204H/820AD) was the eponym of the Shafi'i school of legal thought, one of the four rites in Sunni Islam.
