From Brand: Palgrave Macmillan : The International Crime Drop: New Directions in Research (Crime Prevention and Security Management) before purchasing it in order to gage whether or not it would be worth my time, and all praised The International Crime Drop: New Directions in Research (Crime Prevention and Security

Management):

Drawing on new studies from major European countries and Australia, this exciting collection extends the ongoing debate on falling crime rates from the perspective of criminal opportunity or routine activity theory. It analyses the effect of post WW2 crime booms which triggered a universal improvement in security across the Western world.
