**Joshua Rosenberg, Dominic Daher : The Law of Federal Income Taxation (Hornbooks)** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Law of Federal Income Taxation (Hornbooks):

0 of 0 people found the following review helpful. Great resource although somewhat dated By Bookasuarus  
Rex Income Tax law changes every year as our government seeks to claim a larger portion of our earnings, so any book on Tax Law will be dated as is this one. Hornbooks are valuable assets to law students. The usual practice at Law School is to use a Casebook, which contains summations of major cases. The student then "briefs" that case by summing up the major points of law used to determine the ruling in that particular case. Of course, that presupposes that the student knows what the principle points of law are in that case. And Law Schools DO NOT teach that: it is up

to the student to acquire the necessary understanding. That is where the Hornbook comes in. Unlike the Case Books, the Hornbooks EXPLAIN the law. By studying the Hornbook first, one has a better chance of understanding the law as it is applied in real life. 0 of 0 people found the following review helpful. Five Stars By katrinia Great book ...my husband is happy

This treatise provides expert guidance to law students and practitioners alike on this increasingly complex area of the law. It provides up-to-date, comprehensive coverage of pertinent provisions of the Internal Revenue Code, relevant administrative guidance, and appropriate case law. Above all, it offers a unique blend of the theoretical and practical aspects of federal income taxation. The authors bring to life one of the most challenging areas of the law with their expert analysis. This treatise is a necessity for anyone hoping to gain a better understanding of federal income taxation.
