From American Bar Association : The Law of Green Buildings: Regulatory and Legal Issues in Design, Construction, Operations, and Financing before purchasing it in order to gage whether or not it would be worth my time, and all praised The Law of Green Buildings: Regulatory and Legal Issues in Design, Construction, Operations, and Financing:

Examining the most important issues in achieving the goal of building more efficient and less damaging buildings, this book highlight the significant statutes and regulations as well as other legal issues that need to be considered when advising clients in the development, construction, financing, and leasing of a green building. Topics include federal incentive programs, financing, alternative energy, site selection, land use planning, green construction practices and materials, emerging legal issues, and the effects of climate change on planning and architectural design.
