Malcolm A. Clarke : The Law of Liability Insurance (Lloyd's Insurance Law Library) before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Law of Liability Insurance (Lloyd's Insurance Law Library):

This book provides an authoritative and comprehensive review of all aspects of the law that relate to liability insurance contracts. Taking an international comparative perspective, The Law of Liability Insurance covers all the major types of liability insurance, not just professional indemnity insurance, presenting the issues according to the general principles of contract law. The book begins by concentrating on the fundamentals of the liability insurance contract

before moving on to cover conditions, defence, exclusions, and finally claims against and non-payment by the insurer. This book will be an invaluable reference tool for practitioners and professionals working in the commercial liability insurance industry, including those who operate globally, as well as being a source for academics and post-graduate students.

[The book] is a brief, crisp and clear account of the law, which explains the principal issues and outlines the main difficulties. The depth of Professor Clarke's knowledge shines through in his easy exposition of the subject-matter - Philip Rawlings for The International Company and Commercial Law About the Author Malcolm A. Clarke is the Emeritus Professor of Commercial Contract Law at Cambridge University and is based at St Johns College. Professor Clarke is a leading figure in the field of insurance and is currently working by invitation with the American Law Institute (Philadelphia) on a Restatement of the US Law of Liability Insurance.
