**Kern Alexander, M. Alexander : The Law of Schools, Students and Teachers in a Nutshell (In a Nutshell (West Publishing))** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Law of Schools, Students and Teachers in a Nutshell (In a Nutshell (West Publishing)):

0 of 0 people found the following review helpful. Great bookBy StudentThis book has been a life saver as a resource book. I bought it for a course I had to take. The required book was by the same authors, only a lot more expensive

since its hard cover, and more detailed. I got this book as an additional resource and have found it to be very helpful. It breaks down the 'legal' points into easy to understand (and remember) language. It still covers all the aspects of school law. It is easy to reference. The index and list of case studies that are referenced in the book is easy to follow. Basically, this has been a book that I could read and get the gist of the topic and an understanding of the legal cases that support the different laws. I can see myself keeping this book handy.0 of 0 people found the following review helpful. Plan on keeping it because it has some great information insideBy TeachmdbBought this book for a college class. Plan on keeping it because it has some great information inside!0 of 0 people found the following review helpful. Fast, good, right!By Amy CookieI got the book fast. It is in good quality and exactly what I needed.

This text captures the key points of the precedents governing student rights and responsibilities relating to attendance, speech, expression, religion, discipline, grades, tests, drugs, search and seizure and the range of procedural due process interests. The book further addresses the range of constitutional rights and protections for teachers as well as employment terms and conditions, including contracts, tenure and potential liabilities.
