**David Ramos-Munoz, Kevin Ingram : The Law of Transnational Securitization** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Law of Transnational Securitization:

The Law of Transnational Securitization focuses on the legal aspects of securitization from a comparative and systemic perspective. It identifies specific problems that arise in the field of securitization, including transnational

problems, and shows how to solve them within the legal and regulatory framework. The book covers securitization from a UK, European and US perspective throughout including reference to other jurisdictions including India. This work focuses on the legal aspects of securitization from a comparative and systemic perspective. Transnational approach looks at UK, European and US perspective and includes reference to other jurisdictions including India. Identifies specific problems that arise in the field of securitization and shows how to solve them within the legal and regulatory framework. Analyzes the role of securitization in the credit crisis. Including coverage of the interaction of securitization with creditor protection rules in the context of insolvency law and full consideration of conflicts of laws and extraterritorial jurisdiction issues.

This book provides an excellent analysis of the relevant aspects of securitisation. \* Dr Marek Dubovec, Journal of International Banking Law and Regulation \* A valuable transactional guide for practitioners in cross- border securitisations, providing a clear and practical view of this complex area \* Javier Garcia de Enterrria, Lawyer, Clifford Chance, Madrid \* This book goes as long way toward providing a comprehensive reference point for improved market understanding of this business, so that sound structures can help restore the crucial investor confidence needed to provide capital to a capital-constrained world ..... I can highly recommend this book as being an essential part of every global securitisation market participants library of essential reading \* Rick Watson, Managing Director, Association for Financial Markets in Europe \* About the Author Dr. David Ramos-Munoz is an Assistant Professor at Universidad Carlos III de Madrid, where he teaches Commercial Law, as well as Company Law and Securities Regulation. He has worked as a lawyer at the firm J A Garrigues, and at Freshfields in London after winning the Freshfields Financial Times Prize for the Best European Law Student. He has a PhD from the University of Bologne and his research interests are Financial and Securities Regulation and Uniform and Comparative Business Law and Arbitration. Kevin Ingram is a securitization partner at Clifford Chance LLP.
