**Frederic Bastiat : The Law** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Law:

things that caused me to write a poor review: it didn't work for me, and their listed "guarantee" is completely incorrect. If your nose is frequently restricted or plugged because of allergies/colds/etc. this product probably won't work for you. I have allergies, and after falling asleep with the strap on I had dreams of suffocating because I couldn't get enough air. Even after doing the nasal rinse thing before bed, my sinuses couldn't open up enough. Also, it apparently had no effect on my snoring. And, because it is essentially made of neoprene rubber...sweating under the areas covered by the strap [including the chin] is a given, and kind of gross. On the plus side, it was comfortable to wear. I tried to return it today, says that it is ineligible for return. Which kind of makes sense, but so much for "100% Lifetime Satisfaction Guaranteed." And shame on you for not making this clearer. So, \$30 flushed down the toilet. 84 of 94 people found the following review helpful. Performs well and provided positive results. Obviously snoring is ...By Utahskiandhike Performs well and provided positive results. Obviously snoring is a condition that is based in either lifestyle, physical condition or medical condition so one cannot assume something so simple would be the total resolution. But for the money the results were positive without a complex and cumbersome device. Did it totally resolve my snoring, no, but it helped hold my jaw in place so that I was more likely to breathe through my nose and less likely to have my jaw slip into the position that exasperated my snoring. I'm hoping with time there may be a form of muscle memory that will help me improve with or without this device. I definitely had a positive experience by the simple fact that I was not waking up with a dry mouth, indicating that I was breathing more through my nose than my mouth. Worth a try and has improved my sleep. 0 of 0 people found the following review helpful. Here, in this 1850 classic, a powerful refutation of Karl Marx's Communist Manifesto, published two years earlier, Bastiat discusses: what is law?, why socialism constitutes legal plunder, the proper function of the law, the law and morality, "the vicious circle of socialism", and the basis for stable government. French political libertarian and economist CLAUDE FRÉDÉRIC BASTIAT (1801-1850) was one of the most eloquent champions of the concept that property rights and individual freedoms flow from natural law.

Full of truths that are not merely relevant, but are absolutely vital to our future. -- Congressman Dick Armey No work before or since has made such a compelling case for freedom. Bastiat's message will influence students of liberty for years to come. -- Andrea Millen Rich, Laissez Faire Books Language Notes Text: English (translation) Original Language: French About the Author Claude Frédéric Bastiat est né en 1801 et mort en 1850.
