D.M. Hadley : The Northern Danelaw: Its Social Structure, c.800-1100 (Studies in the Early History of Britain) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Northern Danelaw:

Its Social Structure, c.800-1100 (Studies in the Early History of Britain):

Investigating the changing nature of lordship and peasant statuses, the transformation of estate structures, the emergence of villages, and the development of the parish system, D. M. Hadley also explains the peculiarities of the northern Danelaw and reassesses the impact of the Scandinavian settlements on its society and culture. A detailed local study is combined with a consideration of wider issues concerning Anglo-Saxon England and land, and short-term changes unrelated to successive conquests.

"A very useful contribution." *Choice*, July 2001 "D. M. Hadley has written a judicious and provocative study of the evolving social, tenurial, administrative, and ecclesiastical organization of the northern Danelaw...a flawed but important book...The approach is truly interdisciplinary...the positions she advances are persuasive....Hadley...is to be congratulated. The Northern Danelaw is a book that Anglo-Saxon historians and early medievalists in general cannot afford to ignore." *Speculum*, 10/02
