David Levi-Faur : The Oxford Handbook of Governance (Oxford Handbooks) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Oxford Handbook of Governance (Oxford Handbooks):

0 of 0 people found the following review helpful. ... to own this handbook for a while and am glad I had the money at this timeBy RuthJudyElenaI've wanted to own this handbook for a while and am glad I had the money at this time.0 of 0 people found the following review helpful. Four StarsBy Justin LamBook received earlier than expected and in good quality.

The Oxford Handbook of Governance presents an authoritative and accessible state-of-the-art analysis of the social science literature on governance. The volume presents the core concepts and knowledge that have evolved in the study of governance in different levels and arenas of politics and policymaking. In doing so it establishes itself as the essential point of reference for all those studying politics, society, and economics from a governance perspective. The volume comprises fifty-two chapters from leaders in the field. The chapters are organized in nine sections dealing with topics that include governance as the reform of the state, democratic governance, European governance, and global governance.

"Governance is now the cutting edge focus of research in political science. This splendid collection of new essays by prominent scholars summarize the existing literature and advance fruitful lines of inquiry into governance at and between scales of political activity." --Peter M. Haas, Professor, University of Massachusetts Amherst
