A lot of reading is ahead...By Patricia CroweI'd recommend this book to anyone who wants unbiased information about the health care bill and has both the time and patience to read through it. It's not easy reading because it doesn't have a flowing narrative like a novel would have, and does not have a real table of contents which would make it easier to use as a reference manual, but at least the info is non-partisan.1 of 1 people found the following review helpful. Too much!!!!By Adonna WilkinsonHave not gotten thru it yet and to think the "original" is over 2500 pages. No wonder congress skipped reading it and just voted because it seemed okay! Heaven help us all with that kind of "care" for what is made into law!0 of 0 people found the following review helpful. Four StarsBy CustomerVERY informative
