Original take on a scandal you think you know.By MxyztplkThis book is really an incredible piece original research and a giant missing piece to the Watergate puzzle. Shepard was actually on Nixon's defense. Afterwards he spent years on his own research. He issued countless FOIA requests, transcribed ALL of the tapes to accurately document the many fraudulent abuses in the watergate cover up trials. He documents the many ex parte violations between Judge Sirica and the prosecution. No matter what your views are of Richard Nixon, you would be hard pressed to find one shred of innacuracy. All of his claims are backed up by confidential memos and research. A lot of info cannot be found elsewhere. Highly recommended.

An aging judge about to step down. Aggressive prosecutors friendly with the judge. A disgraced president. A nation that had already made up its mind. The Watergate trials were a legal messand now, with the discovery of new documents that reveal shocking misconduct by prosecutors and judges alike, former Nixon staffer Geoff Shepard has a convincing case that the wrongdoing of these history-making trials was actually a bigger scandal than the Watergate scandal itself.
