**J. Wilcox, Steve Rittmaster, Patricia Wager, Alberta Adams : The Surety and Bankruptcy** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Surety and Bankruptcy:

When a contract bond surety's principal files or is forced into bankruptcy, the surety must operate under influence of the bankruptcy court, which is a forum with its own peculiar rules and procedures. Bankruptcy is intimidating for

surety professionals and with good reason venturing into this area without good preparation can be costly. The Surety Bankruptcy helps demystify the process with tools to guide one from pre-bankruptcy planning through to the close.
